

**For Cleaning SFP Transceivers
with Adhesive Technology**

Features

- Designed to clean fiber stub inside SFP transceiver port
- Adhesive technology leaves no scratches or residue on fiber stub surface
- Anti-static materials to protect transceivers from ESD
- Can be used for the other LC connector compliant transceivers

Design

The absorption element accesses to fiber stub inside SFP transceiver port and removes dust and residue which cannot be cleaned by wipe type cleaners.

Usage

Insert the tip of the cleaner into transceiver port. Push the stick until the tip touches the surface.
