CERTIFICATE OF COMPATIBILITY

Starview Technologies certifies that all her transceiver modules are fully compatible with the following manufacturers: Cisco, HP, Force 10, Juniper, Huawei, Extreme Networks, Arista Networks, Brocade, Alcatel Lucent, Avaya, Nortel Networks, Intel, Dell, Palo Alto, Mellanox and Edgecore.

Starview Technologies transceiver modules are produced with high precision in conformance to MSA (Multi-Source Agreement). MSA specifies transceiver modules in accordance with physical dimensions, connectors and signaling used in the module so that multiple vendors can build compatible products at competitive price.

Our factory produces all individual components required in the SFP modules, including the TOSA and ROSA. Every stage of the SFP assembly undergoes strict quality assurance policy with uncompromising standards.

Starview Technologies is already a well-established brand with many successful installations in large internationally well-known companies running on major vendor equipment with mission critical networks.

Starview Technologies transceiver modules are covered by 2 years warranty, next business day advanced replacement policy, as well as money back guarantee.
