

## Built to simplify. Made to connect.

Introducing Mimosa 6 Series FWA Solutions

### Fiber-Fast Performance

High-reliability backhaul products, designed to handle modern traffic demands, deliver aggregate speeds up to 3 Gbps (IP).

### Flexible Deployment

Compact, IP67-rated designs with channel reuse and spectrum efficiency to simplify link planning.

### Proven Value

Industry-leading price/performance with flexible licensed and unlicensed options to fit any network.

### Backhaul

#### Point-to-Point Backhaul Solutions

Mimosa innovative Point-to-Point (PTP) solutions redefine expectations for high-performance connectivity. Our PTP systems are meticulously crafted to provide ultra-fast, secure, and reliable wireless links for short-range to long distances, making them ideal for a wide range of applications, from bridging remote locations to enhancing urban network backbones.

### Access

#### Point-to-Multipoint Solutions

Designed to deliver unparalleled performance, our PTMP solutions provide high-speed, reliable internet access to multiple locations from a single, powerful access point. Whether you're a service provider aiming to expand your coverage or a business seeking robust and scalable network solutions, Mimosa's PTMP offerings ensure seamless connectivity with unmatched efficiency.
